

**With sleep apnea, you lose sleep.
And someone else loses their sanity.**

More than 40 million people are disturbing the peace every night. Snores so loud they rattle the bed. Incessant tossing and turning. Breath stops. Heart stops. And for those who share a bed (or house), it's maddening enough to push you over the edge. Fortunately, the ResMed machine is improving the lives of the sleep disturbed and all those who love them with quiet, comfortable, intelligence that informs on sleep performance and the little things that can improve it.

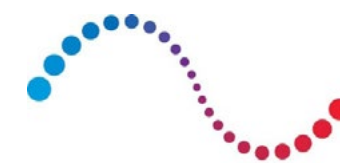

ResMed

Everyone is better with sleep.

**If it's going to sleep with you,
it better tell you how well you did in the morning.**

Most CPAP machines don't live up to your expectations. In fact, the uncomfortable mask and the annoying machine drone leave most users unsatisfied and wanting more. But not the ResMed. This sleep partner will give you an experience you never had. ResMed will guide you every step of the way so it feels personal and provides you with constructive feedback the next morning. So you can adjust your performance and feel more satisfied the next time.

ResMed

The perfect sleep partner.

Our marriage totally changed after she strapped it on.

ResMed

Let's sleep together.

He didn't want an intruder in our bed.
But I insisted. Our marriage needed it.

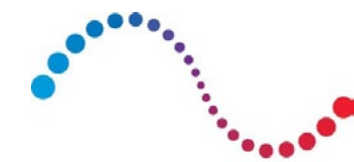

ResMed

Let's sleep together.

I promise to love, honor, and respect you.

I just can't sleep with you.

ResMed

The smart answer to peaceful sleep.
